

Health & Safety Policy

Our main target is that our hotel is a safe place for all our guests and employees.

To us, safety means preparedness, and we know how to act in undesirable situations.

At the **Sentido Palm Royale** we work diligently to provide you with a relaxed and safe environment.

Safety considerations are a part of our daily work.

This may not always be apparent on the surface, but you would notice it, if something were about to happen.

The safety of our guests and employees is not negotiable and this is what we essentially do at the **Sentido Palm Royale** Resort:

- We carry out controls of the evacuations routes, fire equipments, fire alarm system as per legal and our system requirements.
- All our employees are trained for use of the firefighting equipments.
- All our employees are trained for fire evacuation drill and this repeated twice a year with the participation of guests with guest.
- Our hotel has its own emergency response team (ERT) for various emergency situations that may appear in any place.
- There are at least 2 trained first aiders pr shift in the hotel, who are able to provide assistance in any health emergency until the arrival of the ambulance. We have also doctors on duty in the hotel.
- All our employees are trained for basic health and safety at work place and trainings are repeated periodically.
- We remain alerted keeping an eye on those things that seem not be ordinary and we do carry out risk assessments in all our hotel areas with a frequency relevance to their importance.
- We work towards accident elimination by continuously improving methods of operation.
- We carry out preventive maintenance of our buildings and equipment for continuous and safe environment.
